

12th July 2021

Dear Families,

Maths Equipment and Homework policy.

As you will be aware the current situation has meant we have had to alter our practices within school. To ensure there is a reduction in cross contamination we will be expecting students to bring the following Maths equipment to every lesson:

- Ruler
- Compass
- Protractor
- Green Pen
- Scientific Calculator (preferably Casio)

This will also help to reduce the amount lesson time which is being used to hand out equipment.

Homework is set weekly on www.hegartymaths.com and students are expected to complete this to a required pass rate usually of 70%. This can differ for certain tasks but students will be made aware of this if this is the case. Failure to complete homework by the deadline and to the required standard will result in an afterschool detention. Hegarty has built in support videos as well as a message function to use if they are unsure. We strongly recommend that homework is done the day it is set so students have a week to ask for additional support from their teacher if needed.

Kind regards,

Mrs H Bulsari

Director of Learning - Mathematics
